

Beyond Surface Technologies AG

Micro Algae Inspired Sweat Management

miDori®WA1.0

Why we made it:

To develop a non petroleum , non palm oil based wicking/quick dry finish. Particularly suited for sportswear, base layer or next to skin garments.

Active Ingredient:

Micro Algae Oil

Works best on:

Synthetics, Recycled Synthetics and Blends

What we like about it:

Being a plug and play solution with high performance and durability. Its 100% bio carbon content, low CO2 footprint (0.624 CO2-eq/kg) and readily biodegradability.
