

evoPel

A PFC-free, durable water-repellent for all fibres

BENEFITS:

- High performance and durability that protects fabrics from rain and water-based stains
- Does not use PFCs (perfluorinated chemicals), which has toxic effects on the health of humans and animals if released into our waterways.
- Versatile and environmentally-friendly solution

MADE FROM:

Partially-based plant seed, renewable sources, and Bluesign® certified components.

SUITABLE FOR:

Any fibre type

SUSTAINABILITY:

- 55% biocarbon content
- Bluesign® listed
